

Explanation of COVID-19 Infection Screening Status

| Icon | Explanation | Infection | Isolation | Criteria |
|--|--|-------------------|--|--|
|  | Active COVID-19 Infection | Active COVID-19 | Droplet/Contact/Eye <u>AGP</u> : Contact/Airborne/Eye | Positive COVID-19 Test (excluding Recently Recovered) |
|  | Awaiting Test Result COVID-19 | Rule-Out COVID-19 | Droplet/Contact/Eye | Symptomatic COVID-19 test has been ordered and result is pending |
|  | Potential COVID-19 Risk-Patient Symptomatic | NONE | Standard | Reported positive symptoms (cough, difficulty breathing, sore throat, loss of taste and/or smell, unexplained muscle pain, body aches or chills) on Infection Screening Questionnaire <u>OR</u> Reported fever $\geq 37.8^{\circ}\text{C}$ on Infection Screening Questionnaire <u>OR</u> Documented temperature $\geq 37.8^{\circ}\text{C}$ |
|  | Recently Recovered from COVID-19 – Standard Precautions unless Otherwise Indicated | NONE | Standard | <ul style="list-style-type: none"> At least 10 days since first positive test (or onset of symptoms) At least 24 hours without fever (in absence of fever reducers) Improvement of symptoms |
|  | COVID-19 Asymptomatic Screen- Standard Precautions Unless Otherwise Indicated | NONE | Standard | Asymptomatic COVID-19 test has been collected and is pending |
|  | Infection Screening Complete | NONE | Standard | No fever or COVID-19 symptoms |
| | Blank | NONE | Standard | Infection Screening Questions have not been completed |

UIHC Infection Screening and COVID-19 Testing

- **Infection Screening Questionnaire**
 - Completed immediately upon or prior to arrival at UIHC
 - Used to aid in determining if the patient poses an infectious disease risk that requires immediate attention and isolation
 - Completed at initial point of contact (e.g., ED arrival, admission, admission transfer center, check-in)
 - Completed by schedulers if appointment is within 5 days or fewer in the future → will still require Infection Screening Questionnaire at check-in
- **Symptomatic Patient Testing Criteria (“NOVEL CORONAVIRUS COVID-19”)**
 - Any patient with symptoms of COVID-19.
- **Asymptomatic Patient Exposed to COVID-19 Criteria (“COVID-19 EXPOSURE: ASYMPTOMATIC TEST)**
 - Patient was in close contact (spending more than 15 minutes within 6 feet) of a person with lab confirmed COVID-19 infection
 - Recommended sample collection is 10-12 days after last exposure.
- **Screening test criteria (“COVID-19 Asymptomatic Screen: RESTRICTED”)**
 - [Urgent/Essential procedure required, and pre-procedure screening approved by Surgical Services Subcommittee.](#)
 - Pre-transplant
 - New admission, not pre-surgical
 - Discharging to congregate settings
 - UI Student Athlete or Athletics Staff
 - Pre-research screening
 - Inpatient retest
